

ADVANCED PLACEMENT CREDIT-1995 Exams

Overview:

Students receive course and/or free elective credit based on scores received on various exams. These scores may appear on the high school transcript or on score sheets sent to us from ETS (see NOTE for ordering information). The type of credit applied will to some extent depend on the student's major. All exams passed with a score of 3 result in nine units of credit. If course credit is awarded, the unit value of the courses is subtracted from the nine units and any remaining units count as elective credit. Changes from 1994 exams in credit given are marked with an asterisk (*).

All credit is given on a credit/no credit basis; no units are calculated into the GPA.
